

plish more. There is something unusual about these objects, probably something that attracts my mind. And that is why I want to connect my life with science, will study something new.

Ахметзянова Раиса Усуповна

Угунна 370-4-20

My name is Akhmetzyanova Raikhan Isurovna. I was born in Arsk region on April 10, 1999. I have a small family, but very friendly and strong.

I'm a purposeful person, I like to achieve my goal. I'm not afraid to work, but sometimes my mistakes scare me. But I try ignore them.

I have now achieved a lot of in my life on my own without anyone's help. I love to criticize myself, because through this I get to know my good and bad sides.

And also I love my life. I love seeing the beauty of this world. My favorite time of day is night. Because at night everything becomes real.

In my subjects I like math and En-
