About myself.

My name is Rutat Gatarov. I am 22 years old. I currently live in the city Almetjevsk. I graduated from the Almetjevsk Polytechnic College, which I am very proud of. I work for a company called "Electrical Networks". In particular, in the branch of the city of Almetjevsk, an electrician of the relay protection and automation service. I really like my job and I would like to improve in it.

From my hobbies, I want to highlight 3D modeling. For me this is one of the most interesting things to do. I also like active sports, like volleyball and basketball.

I entered Kazan State Energy University to increase my value as an energy worker. Which in the future will lead to career growth. Therefore, I will try to get more knowledge. And close the session on time.
